

**Iveta Bernatova, Ph.D., D.Sc.**

**Institute of Normal and Pathological Physiology,  
Slovak Academy of Sciences, Bratislava, Slovakia**

Iveta Bernatova is the Deputy Director of the Institute of Normal and Pathological Physiology, Slovak Academy of Sciences and the Head of the Laboratory of Neurohumoral Regulation of Hemodynamics. She holds a Ph.D. degree in biochemistry and D.Sc. degree in animal physiology. She worked as a research fellow at Wright State University School of Medicine, Department of Pharmacology and Toxicology, Dayton, Ohio, USA (2001-2002).

A significant part of her current research is focused on health effects of natural polyphenols isolated from cacao and red wine in prevention and treatment of hypertension, endothelial dysfunction and behavioral disorders in experimental models of human primary (pre)hypertension and ADHD.

**Publications:**

1. Peer-reviewed papers: 90
2. Chapters in monographies: 9
3. Citations without self-citations (WoS): 1030
4. H-index (WoS): 20
