

Lars Fieseler, Institute of Food and Beverage Innovation, Zurich University of Applied Sciences, Switzerland

Lars Fieseler graduated at the University of Würzburg (Germany). As a Feodor Lynen Research Fellow (Alexander von Humboldt Foundation) he went to ETH Zurich as a postdoc. Since 2011 he leads the Microbiology group at the Institute of Food and Beverage Innovation, Zurich University of Applied Science. His research interests are the application of bacteriophages for detection and control of food borne pathogenic bacteria.
